

SCHOOL DISTRICT ORGANIZATION

Vision/Mission Statement, Belief Statements and Goals

District Shared Vision

Macomb Public Schools will prepare each student for a successful future.

"Preparing Students for Success"

Macomb School District

Core Belief Statements

We believe:

- Learning best occurs when each student is active in a positive and academically challenging environment.
- A complete educational program develops the intellectual, creative, social, emotional, and physical potential of each student.
- Staff, parents, and community have a shared responsibility to provide learning opportunities that meet the needs of each student.
- Enthusiasm for learning fosters learning for a lifetime.
- Embracing diversity enriches learning.
- Education promotes responsible citizenship.

Strategic Goals

Student Learning

- Continue to review and refine District Curriculum with additional emphasis on instructional technology, diversity, and character development.
- Explore and provide opportunities for student led, project-based, cross-curricular learning.
- Review to maintain balance between vocational and college preparatory offerings based on the needs of students.

Teacher Quality

- Provide highly qualified, caring, compassionate teachers who will form relationships with students to enhance learning.
- Provide teachers resources necessary for success.

Safety

- Create and develop an anti-bullying campaign with specific intervention programs.
- Create a safety and security committee.

District Spending/Funding

- Strengthen student learning through balanced programs that are supported by technology, facilities, and other resources.
- Provide competitive salaries, benefits, and support to attract, and retain high quality personnel.
- Establish a multi-year financial strategy which includes additional sources of revenue to support and enrich educational programs and services.

Communication

- Increase opportunities for improved communication between staff and students.
- Increase opportunities for more school/home communication at middle school and high school.
Promote interactive communication between school board, families, community, business, media, and schools.
